

## OBJECTIVE

Passionate Full Stack Developer with experience in building responsive, scalable web applications using Angular, React.js, Node.js, and ASP.NET. Skilled in developing both frontend and backend systems with clean, efficient code. Eager to contribute to impactful projects and grow in a collaborative, fast-paced environment.

## EDUCATION

Degree	Specialization	Institute	Year	CGPA
B.Tech	Computer Science & Engineering	Avanthi College	2020-2024	7.73
Intermediate	Physics, Chemistry, & Mathematics	Thandra paparaya College	2020	9.50
SSC	-	Z.P.H School	2018	9.3

## WORK EXPERIENCE

- ◆ **Associate software developer** [Musquare technologies pvt ltd] 2025-present
  - Built dynamic and responsive UIs using React.js, Redux, HTML, CSS, Bootstrap for multiple client-facing projects.
  - Integrated RESTful APIs for seamless frontend-backend communication and system scalability.
  - Led development on:
    - **HRM Web Application** – Built scalable modules, enhanced data tracking, resolved critical bugs.
    - **EDUWORK** – Designed UI for student/course workflows, refactored legacy code, improved performance.
    - **LCI Cybersec Website** – Developed a responsive company site with advanced UI/UX and SEO (GSP structured data).
    - **SBodupalli Portfolio** – Delivered a mobile-friendly portfolio for a director using reusable components and semantic markup.
  - Collaborated across teams to ensure project delivery, testing, and deployment in Agile sprints.
- ◆ **Associate software developer** [Motto Systems] 2024-2025
  - Contributed to the development of **GMP Pro**, a compliance and quality management system for pharma and biotech industries.
  - Developed RESTful APIs using ASP.NET Web API and implemented backend logic in C#
  - Built responsive **Angular** frontend components and integrated data seamlessly using **MongoDB**.
  - Ensured code quality through **unit testing** and manual QA cycles prior to deployment.
  - Collaborated in **Agile sprints**, addressed bugs, and optimized backend workflows.
- ◆ **MEAN Stack Developer Training (Dr. Reddy's Foundation)** [Tech jobs]
  - Completed 3-month MEAN stack training with hands-on full-stack development experience
  - Built a project with authentication, CRUD, RESTful APIs, and MongoDB integration.
  - Deployed MEAN apps to the cloud using Git and followed best development practices
  - Gained experience in Angular routing, modular architecture, and JWT-based user authentication.

## PROJECTS

- ◆ **FarmTech Solutions | Personal Project**
  - Designed a responsive MEAN stack web application to connect agricultural specialists with farmers, offering real-time data access and service management.
  - Implemented custom Angular components with intuitive UI, using dynamic layouts, interactive controls, and optimized routing.

### ◆ HopeConnect – Social Welfare Platform | Personal Project

- Built a full-stack application using Angular, ASP.NET Web API, and MongoDB to connect vulnerable groups with nearby support services.
- Integrated real-time location-based search and secure data storage to ensure timely and reliable assistance.

### ◆ Blood Link – Blood Donation Platform | Personal Project

- Developed a MEAN stack web app to connect blood donors with recipients, ensuring real-time availability tracking and secure data handling.
- Optimized RESTful APIs for fast data communication and designed a mobile-friendly UI for accessibility.

### ◆ Portfolio Website | Personal Project

- Created a personal portfolio using Angular, ASP.NET Web API, HTML, CSS, and Bootstrap to showcase skills, projects, and certifications.
- Integrated dynamic sections, responsive layout, and secure API connections for optimal performance.

## POSITIONS OF RESPONSIBILITY

### ◆ Head Organizer | Boot Camp [PEGA]

june-july 2023

- Served as Head Organizer of the PEGA Bootcamp, overseeing end-to-end planning, managing multiple teams, and ensuring the successful execution of all sessions and activities for a seamless learning experience.

## EXTRA-CURRICULAR ACHIEVEMENTS

- ◆ Secured Runners-Up in JP Morgan Chase & Co Hackathon with an EduTech Bank solution.

## TECHNICAL SKILLS

<b>Frontend</b>	: Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, React JS(Beginner), Flutter
<b>Backend</b>	: Node.js, Express.js, REST API, .NET Core, ASP.NET Web API, C#, Dart
<b>Database</b>	: MongoDB (Mongoose), NoSQL, MySQL
<b>Testing</b>	: Unit Testing, API Testing
<b>Development Tools</b>	: VS Code, Visual Studio, Eclipse, Postman, Swagger
<b>Core Concepts</b>	: DBMS, OOPS, API Development & Testing
<b>Libraries</b>	: JSON, Tailwind CSS
<b>Version Control</b>	: Git, GitHub

## SOFT SKILLS

Problem Solving | Time Management | Quick Learner | Team Collaboration | Communication

## CERTIFICATIONS

Full Stack Development with Dr. Reddy's Foundation	November, 2024
Senior System Architect with Pega Systems	March, 2024
System Architect with Pega Systems	July, 2023
Java Essentials By Mind Luster	September, 2023
SQL and Relational Databases Course IBM Skills	June, 2024
Microsoft Azure Fundamentals	November, 2022
Microsoft Azure AI Fundamentals	November, 2022
